

# Do you need quality staff development training?

The Mental Health Association in New Jersey's Career Connection Employment Resource Institute (CCERI) expands employment opportunities for people in recovery by creating system change through the promotion of best practices.

We offer training for providers, consumers, family members and employers as well as technical assistance for mental health providers. We also collaborate with other community organizations. Services are available at no cost to individuals and agencies.

## Types of Training Available

### Specialized Employment Trainings

Experts on a variety of subjects offer training to increase knowledge and skills in a number of areas that impact vocational outcomes.

### Onsite Customized Training

Training is customized by our experienced staff to meet the needs of the target audience. Sessions are conveniently provided onsite at your location, eliminating staff travel.

### 55-Hour Partial Care Prevocational Training

This series is approved by the New Jersey Division of Mental Health and Addiction Services (DMHAS). Its goal is to increase staff's vocational competencies to prepare consumers for employment.

The Mental Health Association in New Jersey (MHANJ) strives for mental health for children and adults through advocacy, education, training and services.

Since 1948 the MHANJ has worked to fulfill its mission by responding to issues and concerns raised by consumers of mental health services.

Career Connection Employment Resource Institute is funded by the New Jersey Division of Mental Health and Addiction Services.
