Daniel was awarded Purple Heart and Bronze Star for bravery in combat during war in Afghanistan.

Trauma, through the vortex of violence and combat, manifests physically and emotionally.

Wherever there is trauma and violence, there is harm. NJRC walks with heroes in the journey of redemption.

- 8% of state prisoners are veterans.
- 22 veterans commit suicide every day in America.
- 30% military in Iraq/Afghanistan have mental health challenges.
- NJ has 1,000+ veterans with less than "honorable discharge," which impacts Veterans Affairs benefits.
