Memorandum of Understanding

Section 1: Purpose

Purpose

Provide a narrative of the mission and vision of the One Stop Career Center/American Job Center Network in the Local Workforce Development Area (LWDA).

This Memorandum of Understanding (MOU) is executed among the Local Workforce Development Board (LWDB), the One-Stop Career Center (American Job Center Network) Partners (Partners), and the Chief Elected Official (CEO). They are collectively referred to as the “Parties” to this MOU. The MOU incorporates an Infrastructure Funding Agreement (IFA) in which Parties agree to the shared costs and benefits of operating a local workforce system. The term “MOU” throughout this document incorporates the IFA.

Mission and Vision

“Through policy, oversight and planning, the Greater Raritan Workforce Development Board (GRWDB) ensures that workforce training and education are responsive to and meet the needs of employers and job seekers in Hunterdon and Somerset Counties.” This is the mission of the GRWDB, a public-private partnership responsible for oversight of the workforce development and delivery system in the two counties. The GRWDB envisions a flexible, seamless and robust workforce training and education system, reflected by:

- An environment of continuous improvement in efficiency and effectiveness of workforce investments based on the needs of job seekers and employers.
- High standards for all operating areas of the GRWDB, including the One-Stop Operator, career training services, youth services, employment services and other system partners and related agencies providing career-related programming.
- Robust policies which create a framework for program delivery while leaving room for partners to embrace flexibility and develop innovative strategies based on the changing needs of those being served.
- A spirit of collaboration in which all system partners – local, county, regional and state -- understand what each offers and look for opportunities to braid services and co-enroll customers in complementary programs.
- A culture where performance metrics and program outcomes are exceeded, and accomplishments are recognized.
- Increased engagement of employers and job seekers with a focus on taking what was learned during the pandemic to expand outreach and develop innovative methods to provide workforce services.
- Expanding opportunities for employers with a focus on providing new and innovative services to local businesses.

- Expanding opportunities and outcomes for job seekers, particularly youth and those with barriers, with a focus on sustainable wage career employment.
- Shared collaboration to achieve these goals across the northern LWDBA region.

The GRWDB understands that employers and job seekers discover available system services through many different avenues, for many different reasons. Some job seekers, for example, may only need access to job listings and resume assistance, while others require skill and aptitude evaluations, adult education, occupational skills training, apprenticeships, individual training account grants, or some type of supportive service to reach their goals. Some businesses may simply require assistance through an in-person or virtual job fair while others would benefit from a more intensive Incumbent Worker Training opportunity. The GRWDB envisions a system in which partners and service providers can assist any customer in accessing services and information how, when and where needed, doing so guided by a spirit infused with motivation, innovation and collaboration.

Section 2: Effective Period

Effective Period

This MOU is effective as of March 31, 2024, which corresponds to the date of signing by the final signatory below and must terminate on December 31, 2026, unless any of the reasons in the Termination section (Section 10, MOU and IFA Process), apply.

Section 5: Role of Local Workforce Development Board

Provide a brief narrative of the LWDB's role in working with partners to ensure the One Stop operations are effective.

There are two operating units often referred to collectively as the Greater Raritan Workforce Development Board, serving Hunterdon and Somerset Counties, as referenced in the Workforce Innovation and Opportunity Act (WIOA) of 2014.

1. The Greater Raritan Workforce Development Board (GRWDB) itself as the entity responsible for planning, policy, and oversight and employing staff to carry out its priorities.
2. Greater Raritan Fiscal Agent (County of Somerset, NJ) as the recipient and custodian of federal and state workforce investment grant funds.

In order to establish a governance structure for the Greater Raritan Local Area, certified by the New Jersey State Employment and Training Commission, both Boards of County Commissioners of Hunterdon and Somerset Counties and the Greater Raritan Workforce Development Board entered into a "Joint Agreement" to further define roles and responsibilities of the partners.

The Joint Agreement was first entered into on January 31, 2003, and has been revised several times over the past two decades. An updated Joint Agreement was entered into on January 1, 2023, and can be **read here**.

Among other provisions, the Joint Agreement:

- Establishes GRWDB Member appointments, and GRWDB Board responsibilities.
- Designates staff and committee structures.
- Designates the County of Somerset, New Jersey as the Grant Recipient and Fiscal Agent.
- Requires the GRWDB to develop a four-year Local Plan and participate in the development of a four-year Regional Plan.

The GRWDB is responsible for the planning and oversight of the local One-Stop system. This includes working with the Chief Elected Official (CEO) of Somerset County and the Governor to get agreement on local Performance Standards. As part of the Joint Agreement, the GRWDB also will:

- Competitively select a One-Stop Operator.
- Competitively select providers of Career Training Services, Youth Services, WorkFirst New Jersey services and Workforce Learning Link services.
- With agreement of the CEO, enter into a Memorandum of Understanding with the Local Area's One-Stop Partners for the development and operation of comprehensive One-Stop Centers in the two counties.

Section 6: Role of One-Stop Operator

Provide a brief narrative of ways the One Stop Operator works with partners to ensure effective operations, service delivery, and service integration.

The Operator ensures the implementation of partner responsibilities and contributions agreed upon in the MOU and coordinates the service delivery of the required One-Stop partners and service providers.

- Evaluates partner performance data and drafts monthly progress reports.
- Identify and analyze One-Stop customer workflow inefficiencies and challenges.
- Works with One-Stop partners to devise and implement solution strategies.

The One-Stop Operator is one of the partners collaborating with the GRWDB to achieve the board's vision for the Local Area:

- Creating an environment of continuous improvement in efficiency and effectiveness of workforce investments based on the needs of job seekers and employers.
- Setting high standards for all operating areas of the Greater Raritan Workforce Development Board, One-Stop Operator, career services, and training services.
- Creating a culture where expectations are exceeded and accomplishments are recognized.

- Increasing the engagement of employers and job seekers with a focus on increased customer satisfaction levels and performance outcomes.
- Expanding opportunities for employers and job seekers through increased market penetration with a focus on serving the needs of local businesses.
- Expanding opportunities and outcomes for youth populations with a focus on sustainable wage career

Working in collaboration with the GRWDB, the One-Stop Operator ensures that the local One-Stop delivery system is customer-focused, uses state metrics and dashboard systems to help direct strategies and programs, produces as appropriate monthly reports on customer usage and financial progress of grant expenditures, and focuses on providing wide access to all services available in the system to job seekers and businesses.

The Greater Raritan Workforce Development Board (GRWDB)

- *The services that partner provides:*

The GRWDB is a public/private partnership overseeing the investment of approximately \$3.5 million in state and federal workforce grants. The public workforce development system can help employers find or attract new talent and tap into talent retention resources, incentives and training programs and find, attract, recruit, develop and retain top talent. The GRWDB is the link to the public workforce system. Like a Board of Directors, they identify the needs of the local job market, leverage resources, and oversee One Stop Career Centers and direct workforce investment programs in our area.

- *The method(s) the partner uses to provide services (in-person, virtually, through cross-trained partners, direct linkage)*

The GRWDB maintains a robust website which highlights the programs and services available from the GRWDB and its partners. Over the past four years, the board introduced SkillUp Greater Raritan

which more than 4,000 residents of the two counties have used for personal and organizational training needs. The board offers a free Resume Portal on the website which has been used by residents to build new resumes or improve existing ones through an AI-based system. The website features a Resources tab with individual links to the SkillUp, the Resume Portal, constantly updated pages of Job Seeker and Employer resources, and a data page that features a custom-designed Unemployment Tracker, links to labor market information reports developed by state partners and other self-services resources. The page also has a detailed Events tab with a link to all meeting packages for every meeting for the past five years as well as a constantly updated calendar. All of this is guided by a philosophy of providing information and services in a way that can be managed by the individual or by a partner trained to use the resources while working with a customer.

In 2022, the GRWDB launched a Chromebook loaner program for WorkFirst NJ customers as a way to enable the population to access career training resources when and where they are needed. Since its introduction, more than 200 individuals have utilized the 45 Chromebooks in the loaner fleet (15 of them are loaned out with the WiFi enabled). This successful project is a collaboration between the GRWDB, the WFNJ vendor and the Somerset County Library System, which helps manage the loan process.

The board works with state Business Services Representatives to organize, sometimes cohost and promote individual or group virtual or in-person Job Fairs as desired by local businesses. Twice a year, the GRWDB hosts Job Fairs with 60 or more employers and also works with partners to host county-specific or regional events related to workforce development programs and/or issues. In addition, the GRWDB offers On-the-Job Training and Incumbent Worker Training programs for businesses; the later includes access to the SkillUp Greater Raritan portal.

- *Strategies for cross-training other staff and partners.*

The GRWDB convenes a minimum of 20 meetings a year - four board meetings annually plus four meetings each for its Disabilities, Literacy, Operations and Youth Committees. These meetings are an opportunity for partners to share information, challenges, ideas and programmatic suggestions and solutions. The website also is a repository for all of the GRWDB's policies which have been shared with partners and which act as guideposts that partners should use to build out their own programs. Key to this ongoing effort is an understanding that all partners should act collaboratively, sharing processes and identifying opportunities to increase positive outcomes for those being served.

- *The partner's role in outreach, recruitment, and marketing*

As noted above, the GRWDB website has been developed as a central resource for the job seekers and businesses served in the two counties. The home page is updated several times a week as is the calendar page and other pages throughout the website. This includes the Job Seekers – Resources page which starts with downloadable PDFs of weekly job postings in the two counties. These two files run anywhere from 500 to 1,500 postings per week and are shared in multiple places.

In a corollary effort, the GRWDB is taking over maintenance of its mobile platform previously maintained by the Career Training Services Center team. The mobile platform will be updated by the

One-Stop Operator, supported by the GRWDB director, and will be used aggressively as an engagement tool.

The GRWDB director posts on social media almost daily and a team member keeps the GRWDB's LinkedIn and Facebook pages updated weekly with new posts and shares. He also writes news releases that keep the home page of the website fresh and are shared through the Somerset County Public Information Office with all print and digital media sites. All this information sharing is designed to keep awareness of the partners' work in front of the wider public. All GRWDB staff also participate in numerous committees in both counties to keep awareness of services high; the director also regularly presents at commissioner meetings, which are live streamed.

In the fall of 2023, through an American Rescue Plan grant, the GRWDB helped develop awareness of an expanded literacy initiative, First Steps Basic English. As part of this initiative, funding was included for social media outreach and some of that outreach focused on general resources on the GRWDB website. As the promotion rolled out, there was an uptick in calls and emails about services, which shows that this approach can bring success. With that in mind, the GRWDB is identifying other opportunities for outreach and marketing and will be updating its PY24 budget to carve out funding specifically for these purposes. In addition, GRWDB staff has asked youth vendors who already have marketing as part of their budgets to provide updated plans on how their outreach dollars will be used.

Board staff also support outreach efforts of the Training Center vendor, and designs flyers for all Business Services events in the Local Area. In the fall, board staff also designed collateral for a regional event that occurred in Somerset County as well as identifying the location and helping with promotion. This event is serving as a template for how the board can assist with other regional events in the future.

- *The partner's contributions to programmatic accessibility*

The GRWDB adopted a policy on accessibility in 2022, and this, along with other board policies, are found on the [Missions, Policies and Strategic Priorities page](#) of the website. The GRWDB is doing an accessibility review of the center in the first quarter of 2024, following up on work done in 2020. In addition, this is a focus of the GRWDB Disabilities Committee, which hosted a Job Fair in 2022, co-supported an event presented by Somerset County partners in 2023, and will continue to support co-brand events in 2024 and beyond in both counties.

- *The partner's contributions to any priorities of service and/or to targeting particular special populations.*

The GRWDB adopted a policy on priority of services and special populations in 2022, and this, along with other board policies, is found on the [Missions, Policies and Strategic Priorities page](#) of the website. All committee and Board meetings have a section on service priorities and the board continues to identify ways to serve different populations.

The GRWDB received \$88,000 in American Rescue Plan (ARP) funding to support a Raritan Valley Community College scholarship for students in need who are studying in-demand occupations at the

college. To date, 42 students have received the scholarship and additional funding is available through 2024. Similarly, the GRWDB received \$260,000 in ARP funding to launch additional literacy classes in Somerset County beyond Title II funding. Five classes started in the fall of 2023 in areas which didn't previously have classes and another three will start in March of 2024. The current classes have 70 students in attendance, and in total, 140 to 150 students will be served. This initiative is also supporting the expansion of classes for tutors being trained by the Literacy Volunteers of Somerset County, which will allow individuals to be tutored one-on-one or in small groups.

The board also has collaborated with partners for an annual Disabilities Career and Resource Fair for the past two years and which will continue in 2024. The GRWDB produced a Job Fair focused on youth in 2022, and for 2024, board staff are working on another youth-focused event built around apprenticeship opportunities in the Local Area and the state. In addition, board staff have worked closely with the state veterans' business services representative and have worked with two statewide reentry-focused service agencies, bringing representatives in to present to partners.

Middle Earth

- *The services that partner provides:*

Middle Earth's mission is to provide individuals, primarily youth, with prevention and intervention services to help them develop into self-sufficient members of the community. We provide an array of services through our WIOA Outreach and Visions Program. We recruit youth who meet the requirements for this grant by reaching out to a wide variety of community based agencies, schools, businesses and more to identify youth. Once they are determined eligible we work with them in our Visions Program. This program provides an employment readiness curriculum to teach soft skills and readies participants for the workforce. Topics include how to apply for a job, how to interview which includes mock interviews, conflict resolution in the workplace, how to dress appropriately, financial preparedness and how to access other supportive services within the community. We also discuss topics related to appropriately handling stress that help to promote and build on social and emotional regulation skills. We also provide a paid internship to youth as well as a paid credential.

- *The method(s) the partner uses to provide services (in-person, virtually, through cross-trained partners, direct linkage)*

We provide youth with both in person and virtual opportunities. It is important to note that the youth who are eligible for our programs are typically dealing with many issues that make participation a struggle. We firmly believe that building a trusting relationship with each youth is imperative to helping them to succeed. It is not just about delivering a curriculum. As we are focused on being a trauma informed agency, we believe that meeting a youth where they are at is important in establishing a good working relationship in which learning is optimized. We also assist with transportation when necessary to eliminate that barrier.

- *Strategies for cross-training other staff and partners.*

Middle Earth holds monthly staff meetings and several trainings throughout the year. All of the programs are explained to new hires so that there is a familiarity with what each program does and who we serve. We also hold Leadership Team Meetings that provide a more in-depth discussion of each of our programs that includes needs, challenges, etc. We are open to having other partners attend any of our specialized trainings when appropriate.

- *The partner's role in outreach, recruitment, and marketing*

Outreach, recruiting and marketing are provided on behalf of YES by making extensive contacts with schools, community based agencies and local nonprofits who also serve similar client base with youth who may be eligible for the YES Program services. We also work hard to recruit businesses that might be open to hosting a youth as a paid intern. We table at multiple events and provide written materials and branded give-aways in order to reach more youth and businesses. In addition, we post information on our website and our social media.

- *The partner's contributions to programmatic accessibility*

Access to the One-Stop Career Centers services are provided through our recruitment of youth for the YES program in schools and local partners throughout the County.

- *The partner's contributions to any priorities of service and/or to targeting particular special populations.*

Middle Earth is using the expertise that we have developed over the past 50 years to engage and work with youth who are experiencing an array of issues that could impede their path towards independent living. We provide a safe place with caring and experienced staff who teach youth valuable employment readiness skills, give community service opportunities, and provide workforce education experiences. Youth who participate are out of school youth facing significant barrier(s). Our value comes in our reputation for building positive relationships with youth who fall into this category.

Many of Polytech's programs also offer Articulation Agreements with various post-secondary schools, enabling students to earn college credits while still in high school. All of our shared-time

programs give students the opportunity to enroll in a Polytech program and also attend their home high school.

Polytech is the vendor for YES program outreach in Hunterdon County. As such, the outreach coordinator sits on the GRWDB Youth Committee and participates in all discussion and strategy sessions. In addition, this partner has a state PACE (pre-apprenticeship program) grant, which the GRWDB and its partners support through referrals. This also presents an opportunity to introduce the PACE participants to the services available in the local workforce system.

This IFA is entered into on March 31, 2024. This IFA will become effective as of the date of signing by the final signatory below and must terminate on December 31, 2026, unless any of the reasons in the Termination section below apply.

Infrastructure Funding Agreement (IFA) Description

1. One Stop infrastructure costs are defined as non-personnel costs that are necessary for the general operation of the American Job Center, including, but not limited to:

a. Rental of the facilities;

b. Utilities and maintenance;

c. Equipment, including assessment-related products and assistive technology for individuals with disabilities; and,

d. Technology to facilitate access to the American Job Center, including technology used for the Center's planning and outreach activities.

2. All Parties to this MOU and IFA recognize that infrastructure costs are applicable to all required Partners, whether they are physically located in the American Job Center or not. Each Partner's contributions to these costs, however, may vary, as these contributions are based on the proportionate use and relative benefit received, consistent with the Partner programs' authorizing laws and regulations and the Uniform Guidance.

3. Partners funding the costs of infrastructure according to this IFA are the same as identified in the Partners section of the MOU.

4. All Parties agree that the cost allocation methodology for this IFA will be the same as described in the Cost Allocation Methodology section of the MOU.

One Stop Operating Budget

Attach the completed One Stop Operating Budget developed with the Infrastructure Funding Agreement template, negotiated according to the process outlined in Section 10 and 10(d) of

the MOU/IFA Guidance. Please note the pages of your One Stop Operating Budget in your final document.

The One-Stop Operating Budget developed with the Infrastructure Funding Agreement template is included as an attachment.

Cost Reconciliation and Allocation

All Parties agree that a quarterly reconciliation of budgeted and actual costs and update of the allocation bases will be completed in accordance with the following process:

1. Partners will provide the LWDB with the following information no later than fifteen (15) days after the end of each quarter, as applicable:

- a. Quarterly cost information and documentation of the actual costs,
- b. Updated staffing information (per the 1st day of the 1st month of each quarter), and
- c. Actual customer participation numbers (per the last day of the last month of each quarter).

2. Upon receipt of the above information, the LWDB will:

- a. Compare budgeted costs to actual costs,
- b. Update the allocation bases, and
- c. Apply the updated allocation bases, using a cost allocation methodology agreed to by all Partners, to determine the actual costs allocable to each Partner.

3. The LWDB will prepare an updated budget document showing cost adjustments and will alert each Partner to the actual costs allocable to each Partner for the quarter.

4. The LWDB will submit the updated budget to all Parties no later than forty-five (45) days after the end of each quarter. The Partners understand that the timeliness of the LWDB's preparation and submission of adjusted budgets is contingent upon the timeliness of each Partner in providing the necessary cost information. For Partners that advance funds to the LWDB area, the LWDB will only send a copy of the updated budget.

5. Upon receipt of the adjusted budget, each Partner will review both documents and will reconcile any necessary budgeted offsets to the satisfaction of LWDB no later than fifteen (15) days following receipt.

6. Partners will communicate any disputes with the adjusted budget to the LWDB in writing. The LWDB will review the disputed cost items and respond accordingly to the Partner within ten (10)

days of receipt of notice of the disputed costs. When necessary, the LWDB will revise the adjusted budget upon resolution of the dispute.

Describe plans and processes in place to reconcile budgeted and actual costs on an ongoing basis, as outlined in Section 9(b) of the MOU/IFA Guidance.

Cost Reconciliation and Allocation Narrative

The attached budget templates detail our related costs. With state permission, we used the templates that were provided for the 2020 MOU. Based on how the local area is organized, the GRWDB is not requiring quarterly reconciliation costs and budgets from its partners.

*** Customers Served Cost is generally only applicable to non-co-located partners whose customers use the physical One-Stop. Costs attributable to these customers include infrastructure costs for shared space such as public access, services such as attributed to intake and assessment, and similar. The cost allocable to non-co-located partners is the ratio of the partner customers using the physical One-Stop to the universe of customers using the One-Stop multiplied by the Total One-Stop Operating Budget.

Steps in MOU/IFA Process

References: MOU/IFA Guidance Section 10

1. Notification of Partners

The WDB Chair (or designee) must notify all Parties in writing that it is necessary to renew and execute the MOU, including the IFA, and provide all applicable policies and preceding MOU documents, as applicable.

2. Initial Meeting

The LWDB Chair (or designee) is responsible for convening all required and optional AJC/One Stop Career Center Partners to formally begin negotiations, and to ensure that, at a minimum, all One Stop Career Center Partners from all counties within the LWDB Area are appropriately represented.

3. Negotiations

Partners must submit all relevant documents to the LWDB Chair (or designee) to begin the drafting of the MOU. During a timeframe established by the LWDB in accordance with the timeline provided by the state and NJDOL, additional formal or informal meetings (informational and negotiation sessions) may take place, so long as they are conducted in an open and transparent manner, with pertinent information provided to all Parties.

4. Draft MOU

The LWDB Chair (or designee) must email a complete draft of the MOU to all Parties.

5. Review and Comment upon Conclusion of the Negotiations

Within a timeframe determined by the LWDB, of receipt of the draft MOU, all Parties must review and return feedback to the LWDB Chair (or designee). It is advised that each Party also use this time to allow their respective Legal Departments to review the MOU for legal sufficiency. It is the responsibility of the LWDB Chair (or designee) to ensure all AJC/One Stop Career Center Partners to the MOU are aware of the comments and revisions that are needed.

Steps to Reach Consensus

Partners will make a concerted effort to negotiate the IFA along with the remainder of the MOU, including the overall operating budget, for the LWDB Area AJC/One Stop Career Center Network. In the event that the LWDB cannot reach consensus with a required partner, the State Funding Mechanism is triggered. The State Funding Mechanism cannot be triggered by additional One Stop Partners not reaching consensus. IFAs must include information on the

steps the LWDB, CEO, and One Stop Partners took to reach consensus or the assurance that the local area followed the State Funding Mechanism and a description of the process to be used among partners to resolve issues related to infrastructure funding during the MOU duration period when consensus cannot be reached.

Modification Process

Modifications to the MOU require approval of the LWDB and Partners, but not of the Chief Elected Official.

1. Notification - When a Partner wishes to modify the MOU, the Partner must first provide written notification to all signatories of the existing MOU and outline the proposed modification(s).
2. Discussion/Negotiation - Upon notification, the LWDB Chair (or designee) must ensure that discussions and negotiations related to the proposed modification take place with Partners in a timely manner and as appropriate.

If the modification is minor, discussion can take place through email communications of all the Parties. If the proposed modification is extensive and is met with opposition, the LWDB Chair (or designee) may need to call a meeting of the Parties to resolve the issue. Upon agreement of all Parties, a modification will be processed. If the modification involves substitution of a party that will not impact any of the terms of the agreement, it can be accomplished by the original party and the new party entering into an MOU that includes the LWDB, wherein the new party assumes all of the rights and obligations of the original party. Upon execution, the LWDB Chair (or designee) presents the agreement as a proposed modification to the MOU, and the remaining steps are followed. If determined that a Partner is unwilling to agree to the MOU modification, the LWDB Chair (or designee) must ensure that the process in the Dispute Resolution section is followed.

3. Signatures - The LWDB Chair (or designee) must immediately circulate the MOU modification and secure Partner signatures within a designated timeframe such as two weeks from receipt. The modified MOU will be considered fully executed once all signatories have reviewed and signed. The modification may be signed in counterparts, meaning each signatory can sign a separate document as long as the LWDB Chair (or designee) acquires signatures of each party and provides a complete copy of the modification with each party's signature to all the other Parties. During the rollout of an MOU, the LWDB should make all Partners aware of the requirements concerning modification and renewal of the MOU (as outlined in TEG 16-16, RSA TAC 17-02, and OCTAE Program Memo 17-4). Renewal of an MOU requires all parties to review and agree to all elements of the MOU and re-sign the MOU. Amendment or modification of the MOU only requires the parties to review and agree to the elements of the MOU that changed.

Non-substantive changes to the MOU, such as minor revisions to the budget or adjustments made due to the annual reconciliation of the budget, do not require renewal of the MOU. Substantial changes, such as changes in One Stop Partners, or a change due to the election of a new CEO, will require renewal of the MOU.

Dispute Resolution

The following section details the dispute resolution process designed for use by the Partners when unable to successfully reach an agreement necessary to execute the MOU. A disagreement is considered to have reached the level of dispute resolution when through thorough and productive discussion, a consensus cannot be reached. It is the responsibility of the CEO to coordinate the MOU dispute resolution to ensure that issues are being resolved appropriately. Any party to the MOU may seek resolution under this process.

1. All Parties are advised to actively participate in local negotiations in a good faith effort to reach agreement. Any disputes shall first be attempted to be resolved informally.
2. Should informal resolution efforts fail, the dispute resolution process must be formally initiated by the petitioner seeking resolution. The petitioner must send a notification to the CEO and all Parties to the MOU regarding the conflict within 10 business days.
3. The CEO shall determine the merit of the dispute and propose a resolution. In the event that the dispute is about contributions to the Infrastructure Funding Agreement, the CEO will indicate that failure to accept the proposed resolution will trigger the State Funding Mechanism.
4. The decision of the CEO shall be final and binding unless such a decision is in contradiction of applicable State and Federal laws or regulations governing the Partner agencies.
5. The right of appeal no longer exists when a decision is final. Additionally, final decisions will not be precedent-setting or binding on future conflict resolutions unless they are officially stated in this procedure.
6. The CEO must provide a written response and dated summary of the proposed resolution to all Parties to the MOU.
7. The CEO will contact the petitioner and the appropriate Parties to verify that all are in agreement with the proposed resolution.

Termination

This MOU will remain in effect until the end date specified in the Effective Period section, unless:

1. All Parties mutually agree to terminate this MOU prior to the end date.
2. Federal oversight agencies charged with the administration of WIOA are unable to appropriate funds or if funds are not otherwise made available for continued performance for any fiscal period of this MOU succeeding the first fiscal period.
3. Any party unable to perform pursuant to MOU due to lack of funding shall notify the other Parties as soon as the party has knowledge that funds may be unavailable for the continuation of activities under this MOU.
4. WIOA is repealed or superseded by subsequent federal law.
5. Local area designation is changed under WIOA.
6. A party breaches any provision of this MOU and such breach is not cured within thirty (30) days after receiving written notice from the LWDB Chair (or designee) specifying such breach in reasonable detail. In such event, the non-breaching party(s) shall have the right to terminate this MOU by giving written notice thereof to the party in breach, upon which termination will go into effect immediately.
7. In the event of termination, the Parties to the MOU must convene within thirty (30) days after the breach of the MOU to discuss the formation of the successor MOU. At that time, allocated costs must be addressed.
8. Any party may request to terminate its inclusion in this MOU by following the modification process identified in the Modification Process section above.
9. All Parties agree that this MOU shall be reviewed and renewed not less than once every 3-year period to ensure appropriate funding and delivery of services.

Accessibility

29 CFR 38.13 requires that:

(a) No qualified individual with a disability may be excluded from participation in, or be denied the benefits of a recipient's service, program, or activity or be subjected to discrimination by any recipient because a recipient's facilities are inaccessible or unusable by individuals with disabilities.

(b) All WIOA Title I-financially assisted programs and activities must be programmatically accessible, which includes providing reasonable accommodations for individuals with disabilities, making reasonable modifications to policies, practices, and procedures, administering programs in the most integrated setting appropriate, communication with persons with disabilities as effectively as with others, and providing appropriate auxiliary aids or services, including assistive technology devices and services, where necessary to afford individuals with disabilities an equal opportunity to participate in, and enjoy the benefits of, the program or activity.

Accessibility to the services provided by the American Job Centers and all Partner agencies is essential to meeting the requirements and goals of the One Stop Career Center Network. Job seekers and businesses must be able to access all information relevant to them via visits to physical locations as well as in virtual spaces, regardless of gender, age, race, religion, national origin, disability, veteran's status, or on the basis of any other classification protected under state or federal law.

One Stop Centers will maintain a culture of inclusiveness and the physical characteristics of the facility, both indoor and outdoor, will meet the latest standards of accessible design. Services will be available in a convenient, high traffic, and accessible location, taking into account reasonable distance from public transportation and adequate parking (including parking clearly marked for individuals with disabilities).

Indoor space will be designed in an "equal and meaningful" manner providing access for individuals with disabilities.

Monitoring

The LWDB, or its designated staff, officials from the State and Local administrative entities, the U.S. Departments of Labor, Education, and Health and Human Services have the authority to conduct fiscal and programmatic monitoring to ensure that:

1. Federal awards are used for authorized purposes in compliance with law, regulations, and State policies;
2. Those laws, regulations, and policies are enforced properly;
3. Performance data are recorded, tracked, and reviewed for quality to ensure accuracy and completeness;
4. Outcomes are assessed and analyzed periodically to ensure performance goals are met,
5. Appropriate procedures and internal controls are maintained, and record retention policies are followed; and
6. All MOU terms and conditions are fulfilled.

Non-Discrimination and Equal Opportunity

1. All Parties to this MOU should expect regular fiscal and programmatic monitoring to be conducted by each of the above entities, as appropriate.
2. All Parties to this MOU certify that they prohibit, and will continue to prohibit, discrimination, and they certify that no person, otherwise qualified, is denied employment, services, or other benefits on the basis of: (i) political or religious opinion or affiliation, marital status, sexual orientation, gender, gender identification and/or expression, race, color, creed, or national origin; (ii) sex or age, except when age or sex constitutes a bona fide occupational qualification; or (iii) the physical or mental disability of a qualified individual with a disability.
3.
